About Vortex Music & Movies

Daren Compton loves music and movies – a lot – and he has spent a lifetime happily collecting high quality vintage vinyl, Blu-Ray, DVDs, CDs, and LaserDiscs. This year, Daren is living the lifelong dream of opening his own neighborhood music and movie store – Vortex Music & Movies – so that he can help them build collections of their own.

Not only does Daren have the expertise that comes from being a serious collector, but he also has the friendliness and commitment to professional service that comes from being a long-time chef and a long-time member of the Nordstrom team.

Daren has realized his vision of a local shop where folks are encouraged to stop in to say “hey,” sit on the couch, and listen to some tunes or watch a flick. And, as a new generation of music fans are now showing their preference for the artisan-crafted artifact of the vinyl record, as well as their passion for collecting items from the "classic era" of rock and pop music, Daren looks forward to providing the best and most desired items to all his customers for many years to come.
